CASE STUDY

NEW BATHROOM SUITE
ILFORD, LONDON

A photograph of a modern bathroom suite. The focal point is a large, arched mirror with a warm, golden-brown LED light strip around its frame. The mirror reflects a glass-enclosed shower area with dark grey tiles and a white towel hanging on a rack. Below the mirror is a white ceramic sink with a chrome faucet and two side handles. The sink is set into a wooden vanity top. To the left of the sink, there is a roll of white paper towels and a tube of toothpaste. The wall behind the sink is covered in dark grey rectangular tiles. To the right of the sink, there is a window with white horizontal blinds and a wooden windowsill. A white towel is hanging on a chrome towel ring on the wall to the right of the window.

THE JOB

A regular client of ours, that we have collaborated with on previous historical projects, approached us to carry out her bathroom renovation in Ilford, London.

For this project we:

- Stripped out the existing bathroom suite, wall and floor tiles, ceiling and disposed of
- Built studwork to form boxing for plumbing, cistern and a cupboard
- Installed the shower tray which the client provided along with new pipework for the shower, basin and WC
- Installed new waste pipes for the shower, basin and WC
- Plasterboarded the ceiling and walls before skimming the ceiling
- Tiled the walls with tiles supplied by client
- Laid Ditra matting and tiled floor with tiles supplied by client
- Installed a new light, spur for towel rail and fan
- Installed a shower valve, screen, basin, WC, dual fuel towel rail, mirror and doors to built-in cupboard
- Applied 1st and 2nd coats of bathroom paint to ceiling

The client was incredibly happy with the finished project and we will be returning to the property to begin a new project in a few months!
