CASE STUDY

A photograph of a modern bathroom interior. The walls are covered in large, light grey rectangular tiles. On the left, there is a glass-enclosed shower area with a silver handle. In the center, a white toilet is positioned against the wall. To the right of the toilet is a white pedestal sink with a chrome faucet, mounted on a dark grey vanity unit. A roll of white toilet paper is mounted on the wall above the toilet. A window with a white frame is visible on the right side of the image. The floor is made of light-colored tiles.

OFFICE REFURB
HARPENDEN, HERTFORDSHIRE

THE JOB

With our office/workshop being based on a commercial farm, we have many wonderful small businesses we have become neighbours with. It's been great to connect with other small businesses in the community.

One of the members of staff who work within the farms office approached us with a small project she needed completing in her home. She had already had the existing bathroom suite removed, and just needed the room tiling and bathroom installing.

For this project we:

- Tiled all the walls and floor (tiles supplied by client)
- Installed the shower, WC basin and shower screen (supplied by client)
- Cleared site on completion

This project took a couple of days to complete.
